Wall Band Steel Shelving Installation Guide

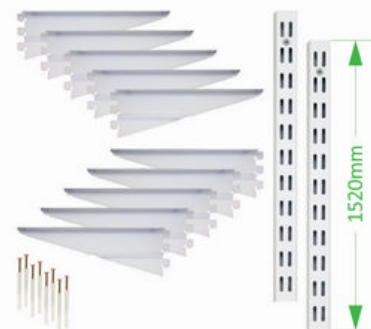

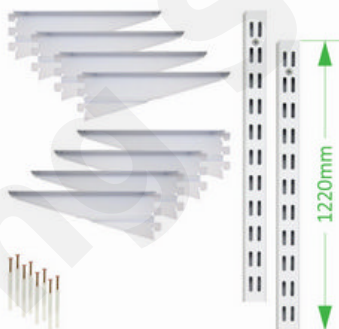

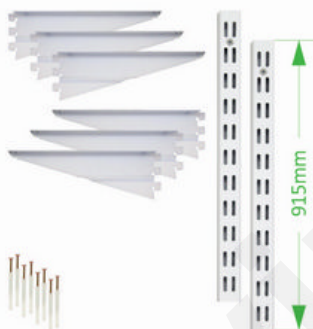

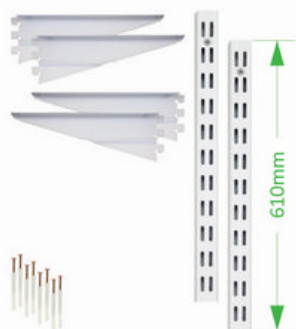

Wall Band Shelving Example Using:

- 4 x Double Slotted Wall Bands
- 2 x Perforated Infill Panels
- 24 x Blade Brackets
- 12 x Steel Shelves

PLEASE NOTE: This drawing is intended as an illustration. The drawing is not to scale. Please consult a qualified installer to confirm sizes and the appropriate fasteners needed to secure the wall band uprights to the wall.

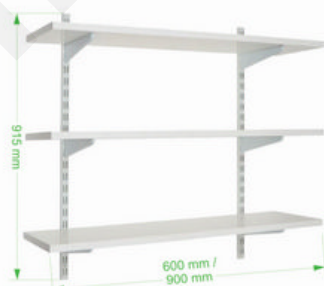

Wall Band Shelf Kits for Home & Office

Kit Includes:

- 2 X Wall Band Uprights 610 / 915 / 1220 1520(h)mm
- Excludes Shelves
- 4 / 6 / 8 / 12 X Shelf Brackets for Timber Shelves
- 1 X Fastener Kit Consisting of Masonry Nails

For Timber Shelves

Kit Includes:

- 2 X Wall Band Uprights 610 / 915 / 1220 1520(h)mm
- 4 / 6 / 8 / 12 X Shelf Brackets
- 2 / 3 / 4 / 5 X Melamine Shelves 600 or 900(w) x 250 / 300 / 400(d)mm
- 1 X Fastener Kit Consisting of Masonry Nails & Wood Screws

With Melamine Timber Shelves

Wall Band Shelf Kits for Home & Office

Assembly & Installation for Wall Band Shelving Kits

Information

If in doubt, contact your supplier

Read this guide thoroughly before commencing assembly and retain for future reference

Before commencing assembly, unpack carefully and check that all components ordered are included

Assembly should be undertaken by a minimum of two competent people

Tools – Spirit level, screwdriver, power drill and a 8mm concrete drill bit is required

Assess for floor fixing. Tall narrow bays may require this to ensure stability

We recommend products over 2000mm high are fixed to the wall where possible

Caution

During assembly, ensure that:

Take care during assembly and in use, particularly when lifting or stretching & when using tools

Wear appropriate clothing - protective gloves and footwear are recommended

Build on a suitable level floor, which is strong enough to support the load and allow adequate working space

Dispose of packaging materials responsibly

Warning: Rules for safe use of shelving/workstations/workbenches

Ensure these instructions are retained for reference and that users are aware of the rules for safe use

Never climb on the structure or stand on the shelving/workstation/workbench

Do not lean or support ladders, steps, or other objects against shelving / workstation / workbench

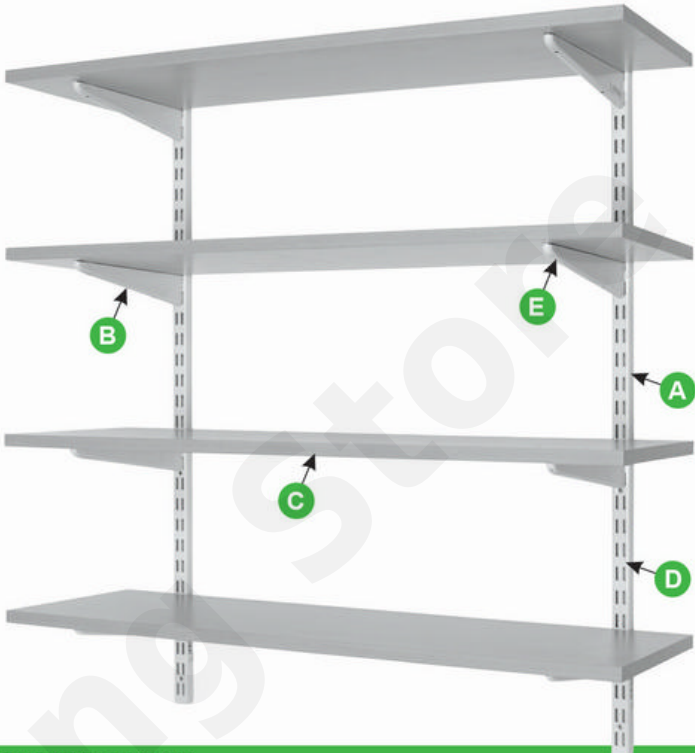

Always use safety steps to reach high shelves

Do not use in damp or wet conditions

Load heavy items on the lower shelves & lighter items on the higher shelves

This product is designed for hand loading only

Ensure that the maximum load carrying capacities are not exceeded. Refer to the loading information

COMPONENT CHECK LIST		
Component		Quantity
A Slotted Steel Uprights		2
B Brackets		2 per shelf
C Shelves		Dependant on kit choice
D Upright Fixings Pack		1 Pack
E Shelf Fixing Pack		1 Pack

Shelving is safe when used responsibly. If in doubt, contact the supplier

Loading information

Wall Mounted Shelving Kits

These kits are recommended for light and medium duty use mounted on solid walls and not to plasterboard walls.

Shelf load capacities

- An upright fixing pack and shelf fixing pack is provided with kits, however these fixing packs may not be appropriate for every application.
- The strength of the installation is dependent on the wall type. It is the installers responsibility to ensure the wall is suitable for twin slot.
- Please note:** it is recommended that the uprights are spaced no more than 600mm apart for optimum load capacity.

IF YOU ARE IN ANY DOUBT REGARDING LOAD CAPACITIES, PLEASE CONTACT YOUR SUPPLIER

† UDL = Uniformly Distributed Load

Bracket Length	Maximum Bracket Load
170 mm	108kg*
270 mm	69kg*
370 mm	57kg*
470 mm	80kg*

***Please Note** that this does not indicate a capacity per shelf as strength is determined by wall type, type of wall fixings, space between uprights and the distributed load.

Plastic Crates

Icon Key

 **Stacking Crates** are designed to sit securely on top of each other when full, helping you maximise vertical storage space.

 **Nesting Empty** crates fit inside one another, which reduces space during storage and transport.

 **Inter-locking** crates securely connect with each other, ensuring stability and preventing slipping or shifting during stacking, and transporting.

 **Dimensions** All measurements are in millimeters (mm).

Format: **Length x Width x Height**

Eg 600 x 400 200

Our plastic crates deliver reliable performance in demanding environments, from warehousing to retail and food service. They handle heavy loads, repeated stacking, and daily use with ease.

Colours

Our standard colours are; black, grey, red, green, and blue, these crates also offer custom colour options on request, helping you match your brand or organise operations more effectively.

Virgin Plastics

Manufactured from brand-new materials, virgin plastics are perfect for scenarios requiring the highest standards of quality and performance.

These crates excel in cold storage or freezer environments, as they are highly resistant to low temperatures. Additionally, virgin plastics provide uniform colouring, ensuring consistency across product batches—a critical feature for maintaining a professional appearance.

Re-ground Plastics:

Made from recycled materials, re-ground plastics offer a sustainable and environmentally friendly option without compromising on durability.

These crates are ideal for businesses prioritising eco-conscious practices while still demanding high performance.

Re-ground crates are not recommended for food or medical products.

HDPE vs PP Plastic Crates

HDPE (High-Density Polyethylene): HDPE crates are tough, durable, and highly impact-resistant.

They resist cracking and perform well in sub-zero environments, which makes them ideal for cold storage, food handling, and heavy-duty applications.

They handle heavy loads well and perform reliably in demanding environments such as warehouses and industrial applications.

PP (Polypropylene): PP crates are lighter and more rigid, giving them a clean and structured shape.

They perform well in higher temperature environments and resist heat better than HDPE.

They are ideal for general storage, retail displays, and lighter-duty use where appearance and easy handling matter.

Sub-Zero Temperature Use

The snowflake icon indicates crates commonly used in sub-zero environments. This being said, most crates that are made from virgin plastics can be used in freezers.

Crates manufactured from regrind plastic are not recommended for sub-zero temperatures, as the material may become brittle.

Plastic crates should not be exposed to temperatures below -20°C.

Bread Crate - Heavy Duty

Heavy Duty

Lite Duty

Features

- ✓ Original design, standard in height and size
- ✓ Improved strength and durability
- ✓ Nests and stacks with all other current plastic bread crates on the market

Specifications

Type	Material	Weight	External	Internal	Capacity
Heavy Duty	HDPE	1.8kg	595 x 525 x 170	560 x 500 x 140	10 loaves
Lite Duty		1.5kg		560 x 495 x 140	

Confectionery Crate

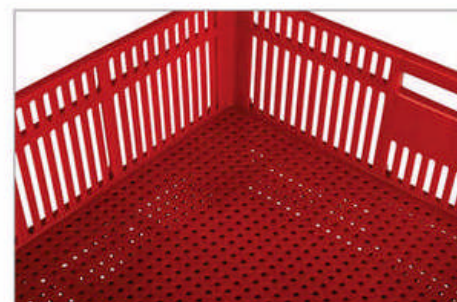

Features

- ✓ Strong and durable
- ✓ Stackable
- ✓ Easy to clean
- ✓ Rounded edges
- ✓ Small aperture floor
- ✓ Ventilated
- ✓ Fully recyclable plastic
- ✓ Cost efficient
- ✓ Variety of colours available

Specifications

Material	Weight	Capacity	External	Internal
HDPE	1.2 Kg	26 Litres	523 x 458 x 133	500 x 435 x 120

Berry Crate

Features

- ✓ Market standard
- ✓ Strong and durable
- ✓ Stackable
- ✓ Easy to clean
- ✓ Rounded edges
- ✓ Fully recyclable
- ✓ Cost effective
- ✓ Quality assured

Plastic Crates | Euro Crates

Euro Picking Bin X Large

Product Code	Description
PR008929	Regrind Black
PR008936	Virgin Blue
PR008935	Virgin Green
PR008934	Virgin Red

Specifications:

- **External Dimensions:** 600(L) x 400(W) x 400(H)mm
- **Internal Dimensions:** 565(L) x 365(W) x 390(D)mm
- **Capacity:** 80 Liters
- **Weight:** 3.3Kg
- **Nestable:** No
- **Stackable:** Yes
- **Inter Stacking:** Yes
- **Material:** HDPE (High Density Polyethylene)

Euro Solid Large Crate

Product Code	Description
PR008954	Regrind Black
PR008955	Virgin Blue
PR008957	Virgin Green
PR008956	Virgin Red
PR008958	Virgin White

Specifications:

- **External Dimensions:** 600(L) x 400(W) x 285(H)mm
- **Internal Dimensions:** 565(L) x 365(W) x 270(D)mm
- **Capacity:** 55 Liters
- **Weight:** 2.7Kg
- **Nestable:** No
- **Stackable:** Yes
- **Inter Stacking:** Yes
- **Material:** HDPE (High Density Polyethylene)

Euro Solid Medium Crate

Product Code	Description
PR008949	Regrind Black
PR008950	Virgin Blue
PR008952	Virgin Green
PR008951	Virgin Red
PR008953	Wirgin White

Specifications:

- **External Dimensions:** 600(L) x 400(W) x 230(H)mm
- **Internal Dimensions:** 565(L) x 365(W) x 225(D)mm
- **Capacity:** 45 Liters
- **Weight:** 2.45Kg
- **Nestable:** No
- **Stackable:** Yes
- **Inter Stacking:** No
- **Material:** HDPE (High Density Polyethylene)
- **Flat Base:** Suitable for Conveyor Belts

Euro Solid Slim Crate

Product Code	Description
PR008944	Regrind Black
PR008945	Virgin Blue
PR008947	Virgin Green
PR008946	Virgin Red
PR008948	Wirgin White

Specifications:

- **External Dimensions:** 600(L) x 400(W) x 180(H)mm
- **Internal Dimensions:** 565(L) x 365(W) x 175(D)mm
- **Capacity:** 36 Liters
- **Weight:** 2Kg
- **Nestable:** No
- **Stackable:** Yes
- **Inter Stacking:** No
- **Material:** HDPE (High Density Polyethylene)
- **Flat Base:** Suitable for Conveyor Belts

Euro Solid X Large Crate

Product Code	Description
PR008959	Regrind Black
PR008960	Virgin Blue
PR008962	Virgin Green
PR008961	Virgin Red

Specifications:

- **External Dimensions:** 600(L) x 400(W) x 400(H)mm
- **Internal Dimensions:** 565(L) x 365(W) x 385(D)mm
- **Capacity:** 80 Liters
- **Weight:** 3.3Kg
- **Nestable:** No
- **Stackable:** Yes
- **Inter Stacking:** Yes
- **Material:** HDPE (High Density Polyethylene)

Euro Vented Banana Crate

Product Code	Description
PR008969	Regrind Black
PR008970	Virgin Blue
PR008972	Virgin Green
PR008971	Virgin Red

Specifications:

- **External Dimensions:** 600(L) x 400(W) x 230(H)mm
- **Internal Dimensions:** 565(L) x 365(W) x 225(D)mm
- **Capacity:** 45 Liters
- **Weight:** 2.55Kg
- **Nestable:** No
- **Stackable:** Yes
- **Inter Stacking:** Yes
- **Material:** HDPE (High Density Polyethylene)

Euro Vented Berry Crate

Product Code	Description
PR008964	Regrind Black

FETTLEN

4 and 8 Ton Racking

Galvanised Finish

FETTLLEN 4 and 8 Ton Racking

Racking Solutions for Strength, Durability & Efficiency

Fettlen Light Duty Racking is the ideal solution for storing heavier items that standard shelving cannot support. Designed for warehouses, factories, and high-demand storage environments, our racking systems ensure strength, reliability, and long-term performance.

Manufactured in South Africa, they are built from robust steel and finished with either a powder-coated or galvanised finish to suit different conditions.

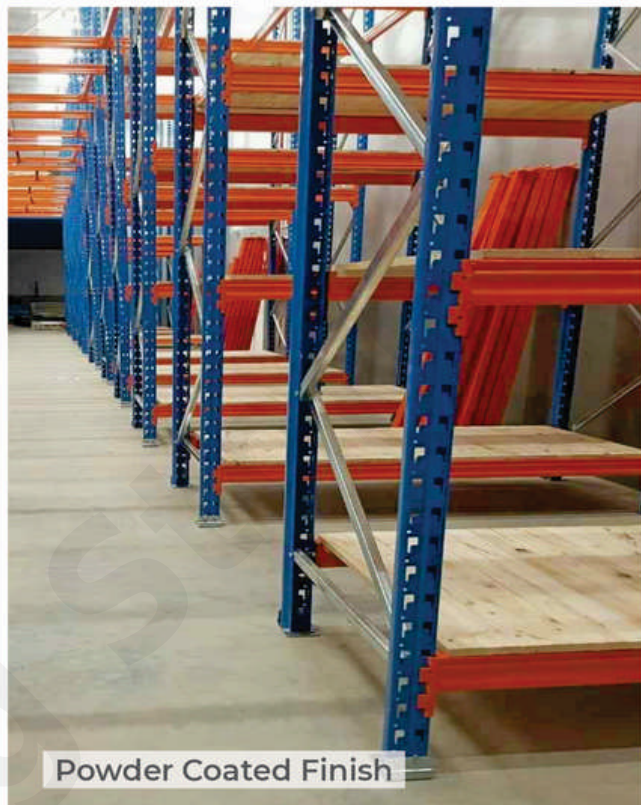

Features

- ✓ **Powder-Coated Finish** – A durable, smooth, and scratch-resistant coating that resists chipping and fading, providing a sleek look while protecting against rust and corrosion. Ideal for general storage areas and indoor applications.
- ✓ **Galvanised Steel Finish** – Offers exceptional resistance to rust and corrosion, making it perfect for fridges, freezers, and humid environments such as cold storage, food processing plants, or coastal warehouses. This finish ensures long-lasting structural integrity, even in the toughest conditions.

Precision Manufacturing & Customisation

At Fettlen, we craft each racking system with precision and care, ensuring it meets the highest quality standards. Our racking is fully customisable, allowing you to adjust the height, width, depth, number of tiers, and weight capacity to fit your specific needs.

Manufacturing takes 2–4 weeks, ensuring a high-quality product that is built to last.

Light Duty (4 Ton) Specifications

Bay Capacity	Supports up to 4000kg UDL (two frames)
Per Tier UDL	200kg – 1500kg UDL Per Tier - depending on beam type, span, and thickness.
Finish Options	Powder-coated / Galvanised

Heavy Duty (8 Ton) Specifications

Bay Capacity	Supports up to 8000kg UDL (two frames)
Per Tier UDL	1800kg – 3950kg UDL Per Tier - depending on beam type, span, and thickness.
Finish Options	Powder-coated / Galvanised

For expert guidance on the right racking solution for your needs, contact our sales & design team today.

We're here to help you maximise your storage space with durable, high-performance racking systems.

FETTLER 4 and 8 Ton Racking

Racking Solutions for Strength, Durability & Efficiency

Components

Bay Types

Each row of racking has one Starter Bay and then any number of Add-On Bays, depending on the required row length.

Racking: Main Components

- 1) Frames refer to the sides of the racking unit and are usually blue.
- 2) Beams are the steel beams between each frame. Each tier or level is made of 2 beams and are usually orange.
- 3) Decking refers to the material between the two beams.

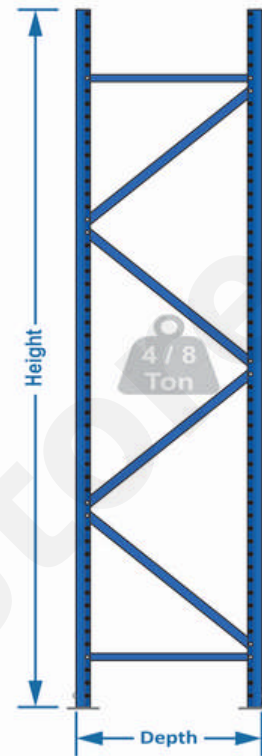

- | | | |
|-------------------------|-----------------------------|---------------|
| 1 Racking End Frame | 6 Galvanised Steel Decking | Legend |

FETTLER 4 and 8 Ton Racking

Racking Solutions for Strength, Durability & Efficiency

Decking

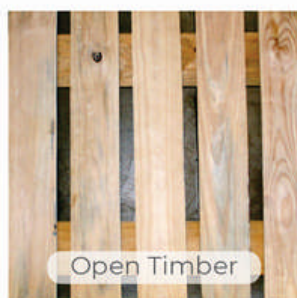

We offer a range of decking solutions to cater to your storage and environmental needs, including:

- Closed Timber Decking
- Open Timber Decking
- Shutter Board Decking (400 to 600mm)
- Galvanized Steel Decking
- Powder Coated Steel Decking
- Galvanized Wire Mesh Decking

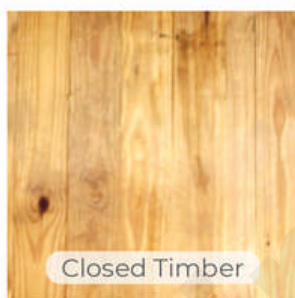

Additionally, our racking systems are designed to efficiently accommodate various types of pallets, ensuring safe and organized storage.

Our decking options are designed to meet various size, weight, and accessibility requirements, including use in walk-in fridges and freezers.

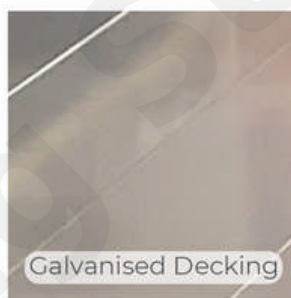

For more information, please contact our sales team. We are here to help you find the perfect racking solution for your needs.

Loading - UDL (Uniform Distributed Load)

FETTLER 4 and 8 Ton Racking

Mobile
Safety
Ladder

Safety & Sizing

Height:

How will your products be retrieved?
Do I need a Safety Ladder?
Ceiling / Roof Height?

Depth:

How deep are my products?

Width:

How many products can I fit on a tier?
How much space is available?

Weight:

How much do the products weigh?

UDL (Uniform Distributed Load)

refers to the amount of **EVENLY DISTRIBUTED** weight.

Step 1: Beam UDL

To calculate your beam UDL, calculate the maximum weight of your products that will be stored on 1 Tier.

Products Per Tier | 300Kg
Add 10% | 30Kg
Total = 330Kg

Step 2: Frame UDL

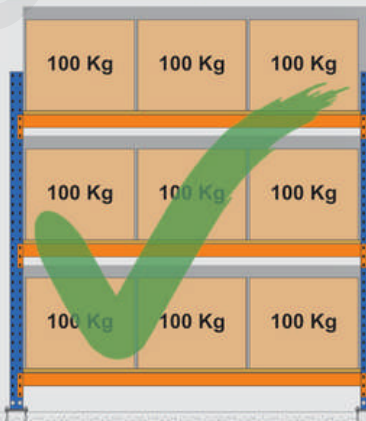

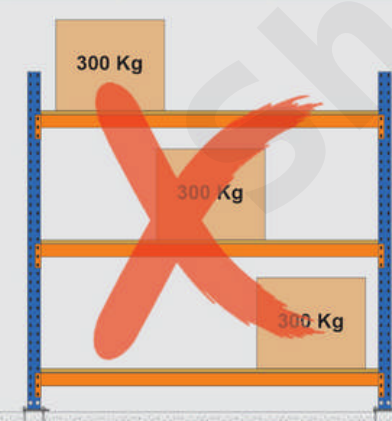

Now multiply the total weight from Step 1 by the number of Tiers you want in each Bay.

Product Per Tier | 330Kg
3 Tiers | X 3
Sub Total = 990Kg
Add 10% | 99Kg
Total = 1089Kg

Weight / UDL (Uniform Distributed Load)

Beam UDL

$$= 300\text{Kg} + 10\%$$

$$= 300\text{Kg} + 10\%$$

$$= 300\text{Kg} + 10\%$$

Minimum Frame

UDL = 990Kg + 10%

Total = 1089Kg

Racking Light Duty 4 Ton | Beam | Galvanised

• **Uniform Distributed Load (UDL)** refers to the maximum evenly distributed weight that 2 beams (1 level or tier) can carry.

• Galvanised steel finish is ideal for fridges, freezers or areas with high humidity.

• LD = Light Duty Beams

• MD = Medium Duty Beams

Shelving Store

Supermarket Shelving

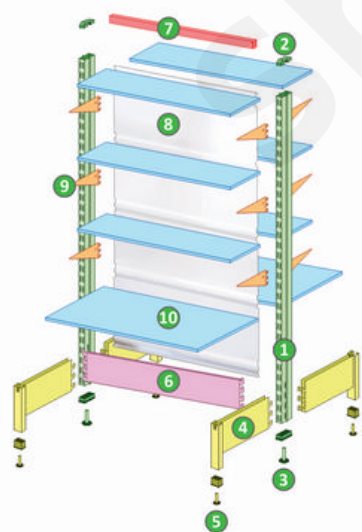

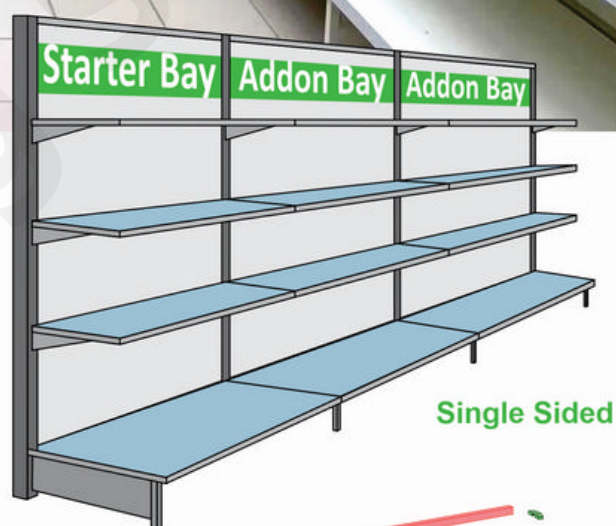

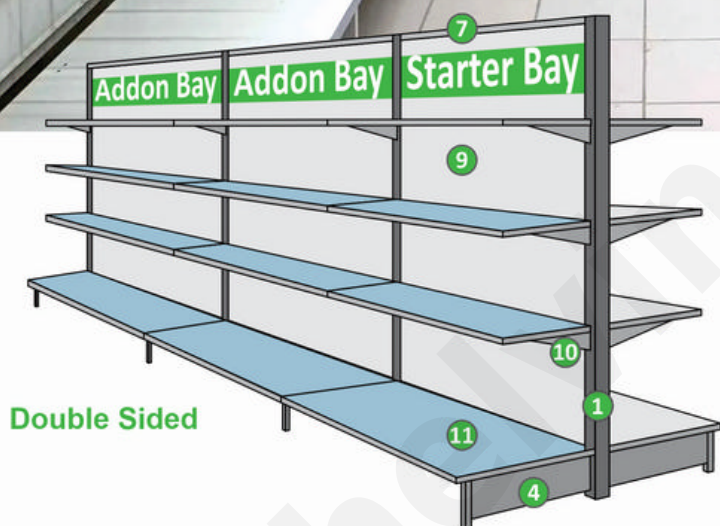

Elevate your store's presentation with our versatile Gondola Shelving. Renowned for its flexibility and ease of reconfiguration, this freestanding shelving solution is designed to adapt to a wide range of products and store layouts. Whether you're in retail, pharmacy, or any other sector, Gondola Shelving offers a practical and stylish way to showcase merchandise.

Crafted with precision in South Africa, our shelving units feature high-quality materials and a durable powder-coated finish, ensuring long-lasting performance and a polished appearance. Choose from our classic standard colours—white and soft cream—or opt for additional shades like black, grey, and silver to perfectly complement your store's décor.

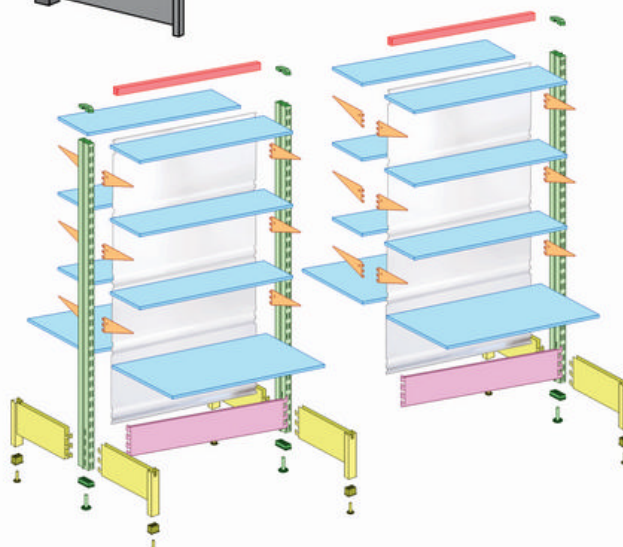

Our Gondola Shelving is available in various sizes and comes with a range of accessories, making it easy to create an organized, visually appealing shopping environment that enhances customer satisfaction and encourages repeat business.

Product Code	Description
PR004390	880(w) x 1035(h)mm
PR004389	880(w) x 1210(h)mm
PR004391	880(w) x 1365(h)mm
PR002129	880(w) x 610(h)mm
PR004388	880(w) x 755(h)mm
PR002130	880(w) x 920(h)mm

- Fits 914mm Wide Gondola Shelving Units
- See size combinations chart below

Gondola Shelving Solid Infill Extension

Product Code	Description
PR006423	880(w) x 300(h)mm
PR006422	880(w) x 600(h)mm
PR006416	970(w) x 300(w)mm
PR006428	970(w) x 600(w)mm

For 914mm Width Gondola Shelving Units

Gondola Shelving Solid Infill Panel

Product Code	Description
PR004386	880(w) x 1050(h)mm
PR004387	880(w) x 1210(h)mm
PR002128	880(w) x 1365(h)mm
PR002126	880(w) x 545(h)mm
PR004385	880(w) x 610(h)mm
PR002127	880(w) x 920(h)mm
PR005977	970(w) x 1050(w)mm
PR005978	970(w) x 1210(w)mm
PR005979	970(w) x 1365(w)mm
PR005975	970(w) x 610(w)mm
PR005976	970(w) x 920(w)mm

- For 914mm Width Gondola Shelving Units
- See size combinations chart below

Gondola Shelving Spacer

Product Code	Description
PR005707	1000(w)mm
PR002110	914(w)mm

- For 914mm Gondola Shelving Units
- Used to join uprights together

Gondola Shelving Top Cap

Product Code	Description
PR005708	1000(w)mm
PR002111	914(w)mm

- For 914mm Gondola Shelving Units

Gondola Shelving Tracking Utility Bar

Product Code	Description
PR004377	25mm Square Bar X 914(W) x 381(D)mm
PR004378	25mm Square Bar X 914(W) x 457(D)mm

- Includes:
- 1 X Left Side Bracket
 - 1 X Right Side Bracket
 - 1 X 914(W) x 25mm Square Bar Bracket
 - 1 X 914(W) x Front Channel

Gondola Shelving Upright Complete

Product Code	Description
PR006132	G060S (Light Duty) 1220(h)mm (ST Foot)
PR006133	G060S (Light Duty) 1372(h)mm (ST Foot)
PR006134	G060S (Light Duty) 1524(h)mm (ST Foot)
PR006135	G060S (Light Duty) 1690(h)mm (ST Foot)
PR006136	G060S (Light Duty) 1830(h)mm (ST Foot)
PR006855	G080S (Medium Duty) 1830(h)mm (ST Foot)
PR006137	G080S (Medium Duty) 1970(h)mm (ST Foot)
PR006138	G080S (Medium Duty) 2134(h)mm (ST Foot)
PR006139	G080S (Medium Duty) 2438(h)mm (ST Foot)

Use with Standard Duty (ST) Foot *(Sold Separately)*

Gondola Shelving Upright Extension

Product Code	Description
PR007047	GS100 300mm Extension
PR007048	GS100 600mm Extension
PR005873	GS60 300mm Extension
PR005874	GS60 600mm Extension
PR005875	GS80 300mm Extension
PR005876	GS80 600mm Extension

- **Type:** Light Duty
- **Excludes:** Top Cap

Slotted Shelf Bin

Product Code	Description
PR004381	910(w) x 380(d)mm Down Sloping
PR004379	910(w) x 380(d)mm Horizontal
PR004382	910(w) x 460(d)mm Down Sloping
PR004380	910(w) x 460(d)mm Horizontal

Dividers Sold Separately

Slotted Shelf Bin Divider

Product Code	Description
PR004383	380(d)mm
PR004384	460(d)mm

For Horizontal or Down Sloping Shelf Bins

Splicer Corner Support for Glass / Perspex Surrounds (Pack of 2)

Product Code	Description
PR007920	100(h)mm
PR007922	50(h)mm
PR007921	75(h)mm

• Light Grey Plastic

Splicer Divider Support for Glass / Perspex Surrounds (Pack of 2)

Product Code	Description
PR007926	Splicer Divider Support for Glass / Perspex Surrounds (Pack of 2)

• Light Grey Plastic

Splicer Support for Glass / Perspex Surrounds

Product Code	Description
PR005720	Splicer Support for Glass / Perspex Surrounds

• Light Grey Plastic

Steel Shelves for Gondola & Wall Band Shelving

Product Code	Description
PR008302	914(w) x 135(d)mm
PR008312	914(w) x 210(d)mm
PR008311	914(w) x 285(d)mm
PR008310	914(w) x 360(d)mm
PR008309	914(w) x 435(d)mm
PR008308	914(w) x 510(d)mm
PR008307	914(w) x 585(d)mm

- Powder Coated White (Other colours available on request)
- Shelf Brackets Sold Separately
- 914mm wide shelves are the most commonly used

Wire Basket Shelf Divider

Product Code	Description
PR005992	380(d)mm
PR005993	460(d)mm

- For 380(d)mm Wire Basket (Shelf)
- Fits Horizontal or Down Sloping Baskets
- Available In either Left or Right Hand Side

Wire Basket Shelf Kit

Product Code

PR006111
PR006112
PR006113
PR006114

Description

Down Sloping | 914 x 380(d)mm
Down Sloping | 914 x 460(d)mm
Horizontal | 914 x 380(d)mm
Horizontal | 914 x 460(d)mm

Dividers Sold Separately

Wire Divider for Steel Shelves

Product Code

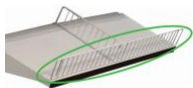

PR005968
PR005969
PR005970
PR005971
PR005972

Description

305(d) x 100(h)mm
381(d) x 100(h)mm
457(d) x 100(h)mm
533(d) x 100(h)mm
610(d) x 100(h)mm

- To fit 305(d)mm Gondola / Wall Band Steel Shelves
- Height: 100(h)mm
- Powder Coated White (Other Colours Available on Request)

Wire Front for Steel Shelves

Product Code

PR005959
PR005961
PR005960

Description

914(w) x 100(h)mm | Powder Coated
914(w) x 30(h)mm | Powder Coated
914(w) x 50(h)mm | Powder Coated

- To fit 914mm Gondola / Wall Band Steel Shelves
- Height: 100(h)mm
- Powder Coated White (Other Colours Available on Request)

Wire Shelf

Product Code

PR005953
PR005951
PR005957
PR005955
PR005954
PR005952
PR005958
PR005956

Description

381(d)mm | Curved Front | Galvanised
381(d)mm | Curved Front | Powder Coated
381(d)mm | Straight Front | Galvanised
381(d)mm | Straight Front | Powder Coated
457(d)mm | Curved Front | Galvanised
457(d)mm | Curved Front | Powder Coated
457(d)mm | Straight Front | Galvanised
457(d)mm | Straight Front | Powder Coated

- Curved Front
- Shelf Brackets are Not Included
- Made to Order

Wire Surround for Steel Shelves

Product Code

PR005965
PR005966
PR005967

Description

914(w) x 305(d)mm
914(w) x 381(d)mm
914(w) x 457(d)mm

- To fit 914(w) x 305(d)mm Gondola / Wall Band Steel Shelves
- Height: 100(h)mm
- Front and 2 Sides
- Comes as a Single Unit
- Powder Coated White (Other Colours Available on Request)

Shelving | Gondola Shelf Kits

Gondola Kit 1 | Starter | Single Sided

- Open Back (Infill Panel Not Included)
- Only has a base shelf (Add extra Shelves & Brackets if required)

Product Code	Description
PR008627	1220(h) x 914(w) x 285(d)mm
PR008628	1220(h) x 914(w) x 360(d)mm
PR008629	1220(h) x 914(w) x 435(d)mm
PR008630	1220(h) x 914(w) x 510(d)mm
PR008631	1220(h) x 914(w) x 585(d)mm

- 1 X Fastener Kit Consisting of Masonry Nails & Wood Screws

With Melamine Timber Shelves

Wall Band Shelf Kits for Home & Office

Assembly & Installation for Wall Band Shelving Kits

Information

If in doubt, contact your supplier

Read this guide thoroughly before commencing assembly and retain for future reference

Before commencing assembly, unpack carefully and check that all components ordered are included

Assembly should be undertaken by a minimum of two competent people

Tools – Spirit level, screwdriver, power drill and a 8mm concrete drill bit is required

Assess for floor fixing. Tall narrow bays may require this to ensure stability

We recommend products over 2000mm high are fixed to the wall where possible

Caution

During assembly, ensure that:

Take care during assembly and in use, particularly when lifting or stretching & when using tools

Wear appropriate clothing - protective gloves and footwear are recommended

Build on a suitable level floor, which is strong enough to support the load and allow adequate working space

Dispose of packaging materials responsibly

Warning: Rules for safe use of shelving/workstations/workbenches

Ensure these instructions are retained for reference and that users are aware of the rules for safe use

Never climb on the structure or stand on the shelving/workstation/workbench

Do not lean or support ladders, steps, or other objects against shelving / workstation / workbench

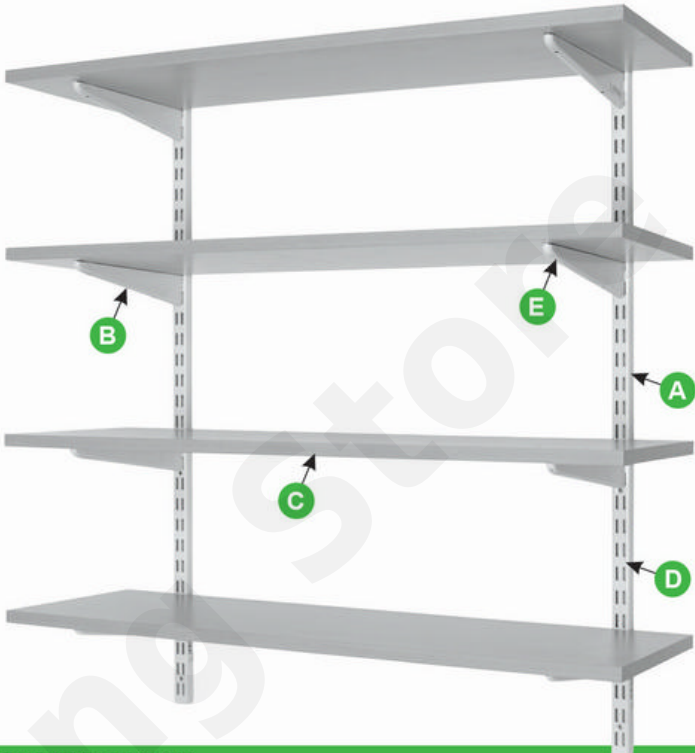

Always use safety steps to reach high shelves

Do not use in damp or wet conditions

Load heavy items on the lower shelves & lighter items on the higher shelves

This product is designed for hand loading only

Ensure that the maximum load carrying capacities are not exceeded. Refer to the loading information

COMPONENT CHECK LIST		
Component		Quantity
A	Slotted Steel Uprights	2
B	Brackets	2 per shelf
C	Shelves	Dependant on kit choice
D	Upright Fixings Pack	1 Pack
E	Shelf Fixing Pack	1 Pack

Shelving is safe when used responsibly. If in doubt, contact the supplier

Loading information

Wall Mounted Shelving Kits

These kits are recommended for light and medium duty use mounted on solid walls and not to plasterboard walls.

Shelf load capacities

- An upright fixing pack and shelf fixing pack is provided with kits, however these fixing packs may not be appropriate for every application.
- The strength of the installation is dependent on the wall type. It is the installers responsibility to ensure the wall is suitable for twin slot.
- Please note:** it is recommended that the uprights are spaced no more than 600mm apart for optimum load capacity.

IF YOU ARE IN ANY DOUBT REGARDING LOAD CAPACITIES, PLEASE CONTACT YOUR SUPPLIER

† UDL = Uniformly Distributed Load

Bracket Length	Maximum Bracket Load
170 mm	108kg*
270 mm	69kg*
370 mm	57kg*
470 mm	80kg*

***Please Note** that this does not indicate a capacity per shelf as strength is determined by wall type, type of wall fixings, space between uprights and the distributed load.

Storage Bins

Insert Bins – Durable & Space-Saving Storage

Insert Bins for Small Parts Storage offer a cost-effective and reliable way to organise small components. Designed for maximum storage per square metre, they help you save space and keep everything easily accessible. Their compact and practical design ensures a clutter-free workspace, whether at home or in a professional setting.

Insert Bins work well in many industries, including:

- ✓ Electronics – store circuit components, cables, and connectors.
- ✓ Pharmaceuticals & Medical Fields – organise medical supplies, syringes, and small tools.
- ✓ Offices & Workspaces – keep stationery, paper clips, and office accessories tidy.
- ✓ Workshops & Garages – sort nuts, bolts, screws, and small hardware with ease.
- ✓ Hobby & Craft Rooms – arrange beads, sewing accessories, and art supplies efficiently.

Thanks to their affordability, these bins also provide a practical storage solution for homes, keeping garages, workshops, and hobby spaces well-organised.

Choose the Right Option

- ✓ With a divider – keeps items neatly separated for better organisation.
- ✓ Without a divider – provides open, flexible storage for various small parts.

Storage Bins

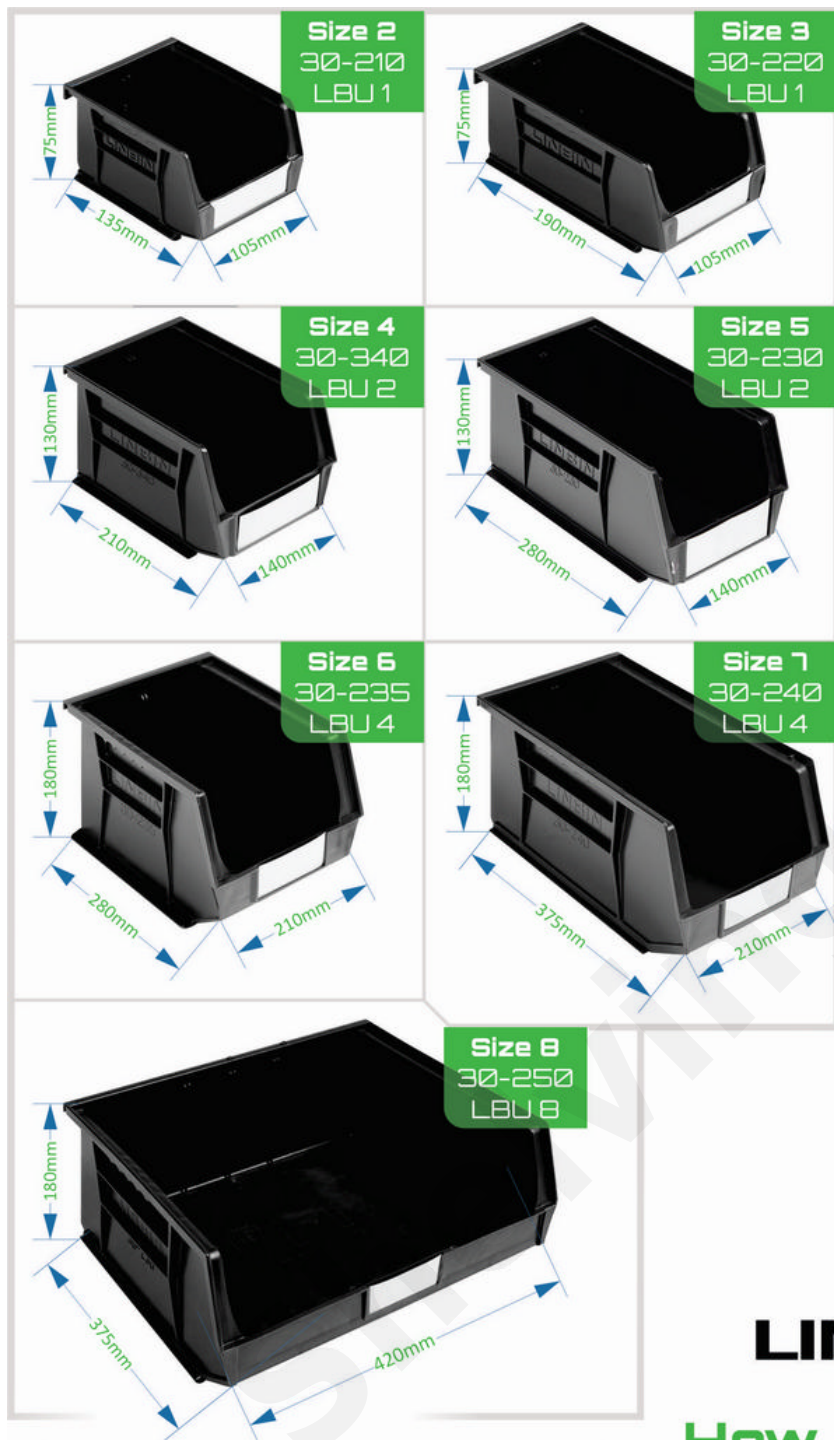

These bins are designed for durability and long-lasting use. They fit seamlessly onto our louvre panels, offering a secure, practical storage solution for your tools, parts, and supplies.

These versatile bins are commonly used in a variety of industries, including the medical field, where organisation and reliability are crucial for maintaining sterile and efficient environments.

Key Features:

- **Built to Last:** Crafted from high-strength polypropylene copolymer, these bins are tough and resistant to damage.
- **Quick Stock Picking:** A large label slot helps speed up stock picking.
- **Easy Stacking:** Reinforcing ribs on the bins allow for secure stacking. Stack them high without worrying about distortion.
- **Stable Mounting:** The full-width lip ensures bins attach securely to our louvre panels, keeping your items safe and organised.
- **Customisable:** Choose from a wide range of sizes and colours. This allows you to create the ideal storage solution for your needs.
- **Versatile Design:** Whether you're storing small parts, tools, or hardware, Linbin Storage Bins offer the flexibility to meet various storage needs.

Perfect for busy industrial environments, workshops, and commercial spaces. Keep your items organised and easy to access.

Storage Bins

Wall Mount Louvre Panels

Wall Mount Louvre Panels

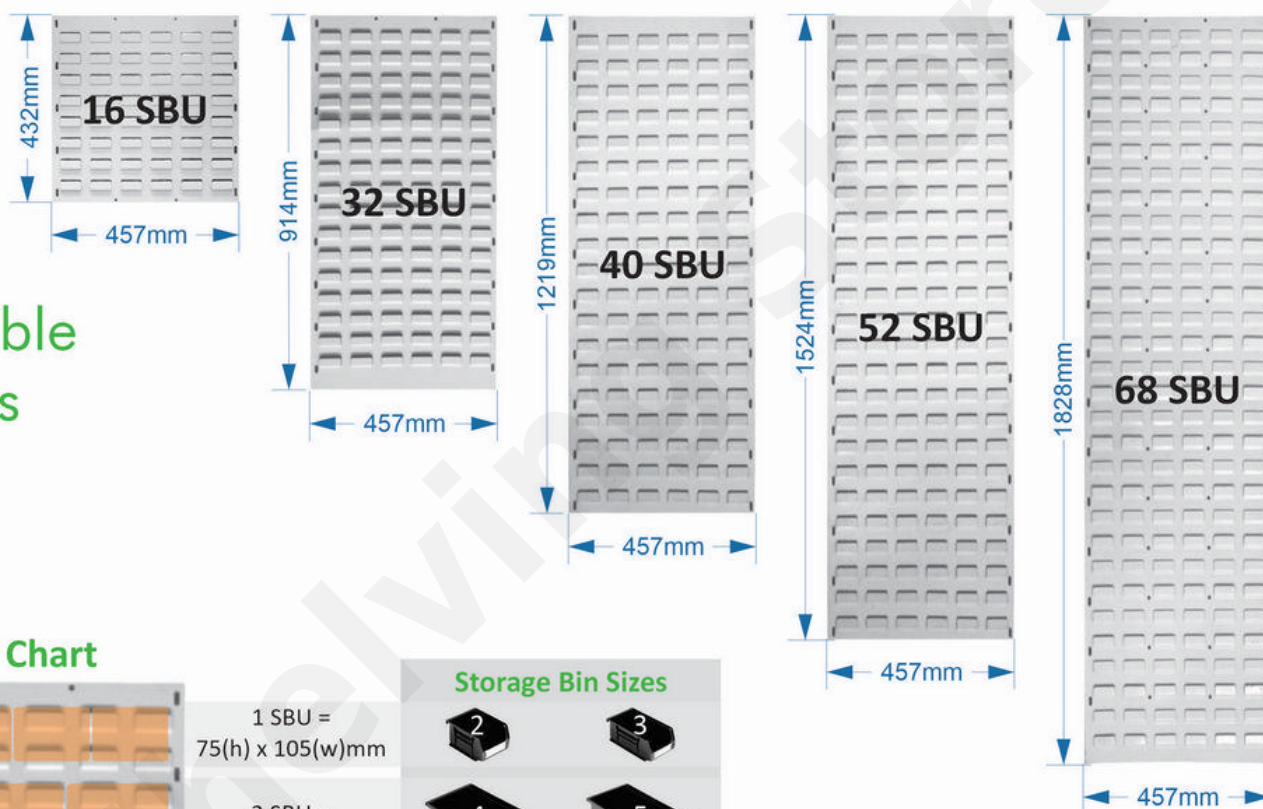

Our **Louvre Panels** are the best solution for organising your storage bins. Designed to work with almost any storage bin on the market, including the popular **Linbin**, these panels provide unmatched versatility and durability.

Key Features:

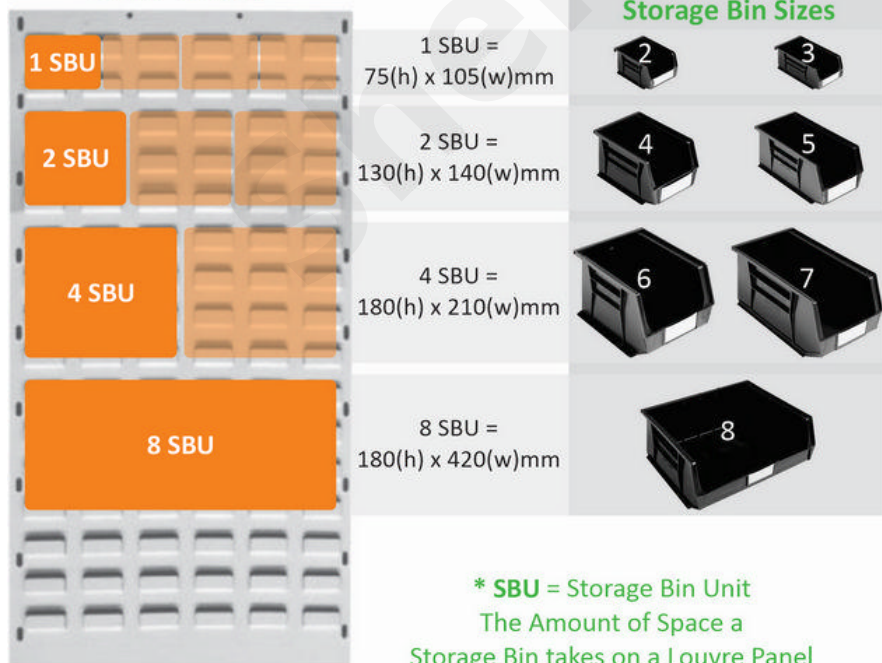

- **Robust Construction:** Made from **1.2mm thick steel** and powder-coated in South Africa for superior strength and longevity.
- **Space-Saving Design:** Effortlessly clip on different-sized plastic storage bins to keep tools, components, or accessories organised and easy to access.

Whether you're storing screws in a garage, running a production line, or pursuing hobbies at home, **Louvre Panels** will revolutionise how you organise your space.

The Amount of Space a Storage Bin takes on a Louvre Panel

Discover the convenience of a well-organised workspace with our durable and adaptable Louvre Panels. A lifetime of simplicity and efficiency starts here!

Free Standing Louvre Panels

Organise your workspace effortlessly with our Free-Standing Louvre Panel, a reliable and efficient storage solution for tools, parts, and supplies.

Not only is it designed to work with almost any storage bin on the market, including the popular Linbin and Galvanised Hooks, but it also provides unmatched versatility and durability.

Key Features:

- **Durable Steel Construction:** Built from high-quality steel, ensuring long-lasting strength and stability.
- **Bin Compatibility:** Specifically designed to accommodate various storage bin types, offering a flexible and customisable storage system.
- **Stable Free-Standing Design:** Provides exceptional stability, so your bins remain securely in place, even in demanding environments.
- **Quick Assembly:** Includes an easy-to-follow assembly process, which saves both time and effort.
- **Space-Saving Solution:** Maximises vertical storage to reduce floor clutter, thereby enhancing workspace organisation.
- **Easy Access:** Thoughtfully designed for quick and convenient access to stored items, making retrieval a breeze.

Applications:

- Ideal for organising tools, hardware, and small parts in garages, workshops, or warehouses.
- Equally suitable for industrial, commercial, and domestic settings.
- Perfect for environments where fast and easy access to stored items is crucial.

Shelf Bins – The Ultimate Organisers

Shelf Bin plastic storage bins are durable and inexpensive space savers! These medium to small sized storage containers are ideal for organising small parts and are used in many industries including:

- Computer parts
- Pharmaceutical
- Medical storage
- Motor vehicle part storage

Shelf Bins are the ideal storage solution for offices, small businesses, manufacturing and warehousing as they ensure MAXIMUM STORAGE PER SQUARE!

There are 6 sizes of Shelf Bins with standard colours in black and blue.

Specifications

	Length	Width	Height
Size 1 (Narrow)	300mm	120mm	90mm
Size 2 (Narrow)	400mm	120mm	90mm
Size 3 (Narrow)	500mm	120mm	90mm
Size 4 (Wide)	300mm	240mm	90mm
Size 5 (Wide)	400mm	240mm	90mm
Size 6 (Wide)	500mm	240mm	90mm

Features

- ✓ Tough and durable construction for long-lasting use
- ✓ Easily subdivide bins for organised, efficient storage
- ✓ Clear protective window keeps labels clean and visible
- ✓ Ideal for neat, well-structured organisation

Dividers Available Separately

Dividers help to organise different parts into one bin for increased storage location.

- ▶ 300mm Bins can accommodate 3 Dividers
- ▶ 400mm Bins can accommodate 4 Dividers
- ▶ 500mm Bins can accommodate 5 Dividers

Shelf Bins – The Ultimate Organisers

Window Labels

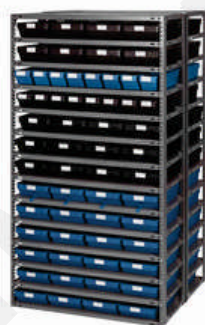

Each bin can be labelled separately with an ID card/label and protective window at the front or back of each bin and on the divider.

Shelf Bin Shelving Units

*Single Sided (Above) or
Double Sided (Right)
Shelf Bin Nut & Bolt Kits*

Shelf Bin Kits with Nut & Bolt Shelving provide a practical, all-in-one storage solution for organising small parts and components. Combining durable plastic shelf bins with a strong, powder-coated nut and bolt shelving unit, this kit is ideal for workshops, warehouses, retail stores, and storerooms.

Shelf Bin Kits with a Lockable Steel Cupboard offer a secure and space-efficient solution for storing small parts, tools, and valuable items. By combining durable shelf bins with a robust steel cupboard, this system keeps contents protected while maintaining a clean and organised layout.

Back Stopper

The Shelf Bin Back Stopper is a practical accessory designed to improve accessibility and organisation. By clipping onto the back of a shelf bin, it allows the bin to tilt forward when hooked onto the shelf above, providing better visibility and easier access to stored items.

Furthermore, they prevent bins from shifting or falling, especially in busy work areas. As a result, your storage remains safe, organised, and visually consistent.

Front Stopper

The Shelf Bin Front Stoppers are a practical accessory designed to improve accessibility and organisation. By clipping onto the front of a shelf bin, it prevents the Shelf bin from sliding backwards, providing better visibility and easier access to stored items.

Furthermore, they prevent bins from shifting or falling, especially in busy work areas. As a result, your storage remains safe, organised, and visually consistent.
