

Insert Bins – Durable & Space-Saving Storage

Insert Bins for Small Parts Storage offer a cost-effective and reliable way to organise small components. Designed for maximum storage per square metre, they help you save space and keep everything easily accessible. Their compact and practical design ensures a clutter-free workspace, whether at home or in a professional setting.

Insert Bins work well in many industries, including:

- ✓ **Electronics** – store circuit components, cables, and connectors.
- ✓ **Pharmaceuticals & Medical Fields** – organise medical supplies, syringes, and small tools.
- ✓ **Office & Workspace** – keep stationery, paper clips, and office accessories tidy.
- ✓ **Workshops & Garages** – sort nuts, bolts, screws, and small hardware with ease.
- ✓ **Hobby & Craft Rooms** – arrange beads, sewing accessories, and art supplies efficiently.

Thanks to their affordability, these bins also provide a practical storage solution for homes, keeping garages, workshops, and hobby spaces well-organised.

Choose the Right Option

- ✓ **With a divider** – keeps items neatly separated for better organisation.
- ✓ **Without a divider** – provides open, flexible storage for various small parts.
