FETTLLEN
BOLTLESS SHELVING

FLEXIBLE BOLTLESS SHELVING

A practical, boltless shelving solution for storerooms, offices, archives, workshops and back-of-house storage.

Fettlen Boltless Shelving delivers fast assembly, clean looks and dependable performance in a compact modular system.

FAST BOLTLESS ASSEMBLY

Clip-together design for quick installation.

STARTER & ADD-ON BAYS

Build single bays of extended runs.

ADJUSTABLE SHELVES

Flexible shelf positioning to suit changing storage.

POWDER-COATED OR GALVANISED

Choose the finish that suits your environment.

BOLTLESS, ADJUSTABLE, EXPANDABLE

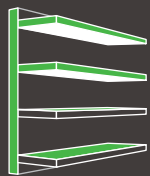

***UDL** (Uniformly Distributed Load) is the maximum weight a shelf or shelving bay can safely support when the load is spread evenly across its surface.

**MODULAR STORAGE
THAT GROWS WITH YOU**

A smart shelving solution for organised, space-efficient storage.

BOLTLESS SHELVING

WHY CHOOSE BOLTLESS SHELVING

Fettlen Boltless Shelving combines strength, durability and flexibility in a smart, modern storage system designed for demanding environments. Its modular boltless construction makes it quick to assemble, easy to configure and simple to adapt as your storage requirements change.

Manufactured from quality steel components and built for long-term reliability, it is well suited to warehouses, storerooms, workshops, retail back-of-house areas, garages and general commercial or home storage.

With a Uniformly Distributed Load (UDL) capacity of 1000 kg per bay, the system provides dependable support for stock, tools, equipment and other heavy items while maintaining a neat, organised appearance.

Whether you need a single bay or a larger storage installation, Fettlen Boltless Shelving offers a practical balance of strength, versatility, durability and value — **making it a reliable storage solution built to last.**

FEATURES

FAST BOLTLESS ASSEMBLY

Quick clip-together assembly with no nuts or bolts.

ADJUSTABLE SHELF LEVELS

Reposition shelves to suit different storage needs.

STARTER & ADD-ON FLEXIBILITY

Start with one bay and expand as required.

1000 KG UDL PER BAY

Supports up to 1000 kg UDL per bay.

DURABLE STEEL CONSTRUCTION

Quality steel construction for strength and reliability.

CHOICE OF FINISHES

Available in black, white or galvanised finishes.

MODULAR & VERSATILE

Flexible storage for commercial, workshop & home use.

IDEAL APPLICATIONS

STOREROOMS

Organise stock and supplies efficiently.

OFFICE ARCHIVES

Store files and documents securely.

RETAIL BACK ROOMS

Keep inventory neat and easy to access.

WORKSHOPS

Store tools, parts & workshop essentials.

HOME GARAGES

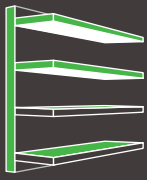

Maximise space and keep things tidy.

BUILD BIGGER WITH ADD-ON BAYS

Create long, cost-effective runs using starter and add-on bays.

A smart shelving solution for organised, space-efficient storage.

TECHNICAL OVERVIEW

Tiny Rack uses a simple modular component system that allows for quick assembly, straightforward extension and flexible shelf positioning.

The combination of upright frames, beams, braces and steel decks creates a practical storage solution for a wide range of environments.
